

Penalty Free Days for Companion Units

From August 13, 2003, through February 13, 2004, the City of San Diego will not impose fines on companion units built without proper permits, located outside the coastal zone.

This is the time to obtain permits for existing companion units. Your property must be two times the minimum required lot size and all parking must be in compliance. Consult with City staff to clarify additional details for qualification. Call (619) 446-5300 for an appointment. Another program will be offered later for those inside the coastal zone.

All regular application and permit fees will still apply. See SDMC section 141.0302 for regulations.

For general information, call (619) 446-5000.
